DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 20 January 2023 at 08:21 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution will be predominantly Low across the United Kingdom on Friday, however light winds may allow isolated pockets of Moderate air pollution to develop near busy roads and urban centres.

Tomorrow: Air pollution will be predominantly Low across the United Kingdom on Saturday, however light winds over England and Wales may allow isolated pockets of Moderate air pollution to develop near busy roads and urban centres.

Outlook: Low air pollution levels are expected from Sunday to Tuesday. However, light winds in the south may allow isolated pockets of Moderate to High air pollution to develop near busy roads and urban centres on Sunday and Monday.
